SHIVAM BHOSALE

Data Analyst

+1 226-758-6727 · shivambhosale909@gmail.com · Toronto, ON · linkedin.com/in/shivambhosale · github.com/ShivamBhosale

PROFESSIONAL SUMMARY

Results-driven Data Analyst with 3+ years of experience transforming complex financial and operational datasets into actionable business insights. Proficient in Python, SQL, Power BI (DAX), and ETL automation, with supporting expertise in Scikit-learn and TensorFlow for predictive analytics. Proven track record of reducing reporting time by 40%, designing executive dashboards, and enabling data-driven decision-making across finance, operations, and leadership teams.

TECHNICAL SKILLS

Core Analytics	Python (Pandas, NumPy), SQL (Advanced), R, Excel
BI & Reporting	Power BI (DAX), Tableau, Power Automate — dashboards, KPI monitoring, data storytelling
Databases	SQL Server, MySQL, MongoDB, PostgreSQL
ML (Supporting)	Scikit-learn (classification, regression, EDA), TensorFlow, feature engineering
Cloud & ETL	AWS (S3, EC2), Azure, GCP — pipeline automation, scalable analytics workflows
Tools	Git, JIRA, Django, FastAPI

WORK EXPERIENCE

Data Analyst | MJR Capital Services Inc. *Mar 2025 – Present · Mississauga, ON*

- Conducted end-to-end financial and operational data analysis using Python, Pandas, NumPy, and SQL to clean, model, and interpret large-scale datasets, guiding strategic business decisions.
- Automated recurring ETL workflows and multi-source data pipelines using Python and Power Automate, reducing manual reporting time by 40% and improving data accuracy and consistency.
- Built and maintained interactive Power BI dashboards using DAX measures, calculated columns, and optimized data models—enabling real-time KPI tracking and operational performance monitoring.
- Applied Scikit-learn classification and regression models to predict payment behavior and detect anomalies, surfacing risk patterns and delivering predictive insights to business stakeholders.
- Executed advanced SQL queries to extract, join, and aggregate financial data from multiple systems, supporting budgeting, forecasting, and variance analysis with reliable, clean inputs.
- Designed cost-control monitoring frameworks with DAX-driven KPIs to track spending patterns and budget adherence, enabling proactive financial governance.
- Collaborated with finance, operations, and leadership teams to analyze business trends, forecast expenses, identify anomalies, and deliver insights supporting executive planning.
- Authored periodic executive reports and performance summaries integrating Python-generated visuals and Power BI dashboards, improving cross-departmental communication and data literacy.

AI Engineer (Graduate Researcher) | University of Windsor / Agriculture & Agri-Food Canada *Sep 2023 – Apr 2024 · Windsor, ON*

- Improved plant disease detection accuracy by 15% through enhancements to image processing and ML pipelines; trained CNN models on 35,000+ annotated images achieving 95% classification accuracy.
- Developed and deployed a Django-based web application delivering real-time AI insights with secure, scalable stakeholder access and robust role-based controls.
- Produced detailed technical documentation, model performance reports, and explainability summaries for cross-functional audiences including government researchers and regulatory partners.
- Performed statistical analysis and EDA on large annotated datasets, applying feature engineering and preprocessing to improve model input quality and pipeline robustness.

PROJECTS

Bloomberg Terminal Replica — Real-time financial dashboard using Yahoo Finance, ECB FX APIs, and Claude API; replicates institutional-grade market intelligence for retail users at zero cost.

BayStreetBot — TSX Stock Screener — Python CLI tool using yfinance, Pandas, and Rich; filters TSX-listed equities by P/E ratio, volume spikes, 52-week proximity, and daily % change.

Free Tech & Science News Aggregator — Python/React app ingesting NewsData.io and RSS feeds via feedparser across AI/ML, Space, Medicine, and Climate categories; AI-generated summaries via Gemini Flash free tier.

EDUCATION

Master of Applied Computing · University of Windsor *Sep 2022 – Apr 2024*

B.Tech in Computer Science Engineering · SRM Institute of Science and Technology *Jun 2017 – May 2021*
